Descripteur(s) : Matériel didactique • Répertoire • Education préscolaire • Primaire (Ordre d'enseignement)

Le MEQ présente la liste du matériel didactique de base approuvé pour les écoles qui dispenseront l'éducation préscolaire et l'enseignement primaire en 1992-1993. Le matériel didactique de base comprend deux types d'ouvrages : les ensembles didactiques et les ouvrages de référence d'usage courant. Ce matériel est d'abord présenté pour l'éducation préscolaire puis pour l'enseignement primaire, selon les matières d'enseignement. L'approbation d'un matériel didactique signifie qu'il respecte chacun des critères suivants : 1. conformité aux exigences pédagogiques du programme d'études en vigueur; 2. respect du bon usage linguistique; 3. respect de l'exactitude scientifique; 4. respect des valeurs religieuses et morales; 5. respect du système international d'unités; 6. respect des exigences visant l'élimination des stéréotypes discriminatoires; 7. respect des règles d'écriture des toponymes.

INTRODUCTION

In accordance with section 462 of the Education Act (1988), the ministère de l'Éducation hereby presents the list of instructional materials approved for use in schools which will be providing education at the preschool and elementary levels in 1992-1993.

This publication lists titles approved for the new programs and courses of study. It replaces all previous official lists which have been published by the Ministère.

SHARING OF RESPONSIBILITIES

According to the Education Act

The Minister may draw up a list of approved textbooks and teaching materials, or classes of teaching materials (section 462).

The school board shall ensure that only approved textbooks and teaching materials or classes of teaching materials are used for the teaching of any program of studies established by the Minister. Materials which relate to Catholic or Protestant moral and religious instruction must be approved by the **Catholic committee** or the **Protestant committee**, as the case may be (section 230).

The school board may adopt criteria for the selection of textbooks and teaching material (section 229). After consulting **the teachers**, **the principal** shall choose the textbooks and teaching material required for the teaching of the programs of studies in accordance with the criteria established by the school board (section 48).

According to the Basic School Regulations

Where the list of approved textbooks and teaching materials or classes of teaching materials for a given program of studies includes one or more textbooks, students shall have at their personal disposal one or more textbooks chosen in accordance with the Education Act (section 48 Basic School Regulations for Preschool and Elementary School).

COMMENTARY

SCHOOL BOARDS MAY NOT USE AS BASIC MATERIAL WORKS OTHER THAN THOSE CONTAINED IN THE LISTS OF INSTRUCTIONAL MATERIALS APPROVED BY THE MINISTER, WHEN SUCH WORKS ARE LISTED FOR A COURSE OR PROGRAM.

Works which are not considered basic instructional material may be used without specific approval. Thus, complementary material (which treats only certain objectives of a program), other types of reference works, literary works generally consulted in a library and songbooks or musical repertoires are considered to be works of general interest and as such are not subject to approval by the Minister. Each school board is to establish its own means of evaluating and selecting these materials.

DEFINITIONS

Basic Materials

The titles contained in this list are **basic materials**, which consist of **instructional packages** and **reference works** for classroom use.

Instructional packages treat most of the compulsory objectives of a course of studies for a given year. They consist primarily of a student's textbook that is usually accompanied by a teacher's guide.

Reference works for classroom use consist of the atlases, bibles, dictionaries and grammars that are used in classrooms on a regular basis for the duration of a course or program of studies.

It should be noted that **consumable materials** which form part of a basic material are no longer admissible for approval as of September, 1991. Until that date, such materials were approved for a maximum of five years, without possibility of renewal. Therefore, the latest possible expiry date for the approval of a consumable material is June 30, 1996.

CRITERIA FOR APPROVAL

Approval of teaching materials indicates that they conform to criteria established by the Ministère with respect to:

- the instructional requirements of an official program or course of studies;
- accuracy of content;
- correct language usage;
- moral and religious values;
- the use of official place names;
- the use of the International System of Units (SI);
- the requirements pertaining to the elimination of discriminatory stereotypes.

TERM OF APPROVAL

The initial term of approval of a material is generally five years. In this document, the end of the initial term of approval is indicated as follows:

Initial approval ends: June 19____.

A term of approval may be extended, usually for a period of three years. Extensions are indicated as follows:

Approval extended until: June 19____.

The works contained in this list are protected by the Canadian Copyright Act, which prohibits reproducing them in an unauthorized manner.

However, an agreement between the Union des écrivains québécois (UNEQ) and the ministère de l'Éducation du Québec allows teachers to reproduce portions of works (25 pages or 10% of the work, whichever is less) in UNEQ's listing, without requesting authorization.

Before reproducing a work by any means, it is important to:

1. verify whether the work is contained in UNEQ's listing;
2. respect the conditions limiting reproduction of the work.

For further information, please contact UNEQ at: (514) 526-6653.
